

Washington University in St. Louis

SCHOOL OF MEDICINE

Program in Physical Therapy

December 1, 2007

Carlo Lanzarini
Carlo Lanzarini

To whom it may concern,

Carlo Lanzarini has my full support and endorsement as an instructor in Movement System Impairment Courses. These courses consist of the concepts and application of those concepts to the diagnosis and management of patients with mechanical musculoskeletal pain. Mr. Lanzarini has translated the book, *Diagnosis and Treatment of Movement Impairment Syndromes*, as well as been a participant in many courses. He also has spent time in the physical therapy clinic at Washington University School of Medicine St. Louis Program in Physical Therapy. He is fully qualified to provide instruction in the concepts and principles of Movement System Impairments and in the diagnostic categories.

Sincerely,

Shirley Sahrman, PhD, PT, FAPTA

Movement System Impairments .
