

Washington University in St. Louis

SCHOOL OF MEDICINE

Program in Physical Therapy

To Whom It May Concern:

Guido Barindelli has my full support and endorsement as an instructor in Movement System Impairment Courses. These courses consist of the concepts and application of those concepts to the diagnosis and management of patients with mechanical musculoskeletal pain. Mr. Barindelli has translated the book, *Diagnosis and Treatment of Movement Impairment Syndromes*, as well as been a participant in many courses. He also has spent time in the physical therapy clinic at Washington University School of Medicine St. Louis Program in Physical Therapy.

Shirley Sahrman, PT, PhD, FAPTA
Professor Physical Therapy/ Neurology/ Cell Biology & Physiology
